

COLONOSCOPY INSTRUCTIONS - AFTERNOON PROCEDURE SAME DAY PREP with PLENVU

Date of procedure:

Doctor:

What is a colonoscopy? A colonoscopy is a procedure that enables your doctor to examine the lining of the colon (large intestine). The instrument used for the procedure is a flexible tube that is gently passed through the anus into the colon. A tissue biopsy may be taken or polyps removed. Colonoscopy is the best test to assess for colon polyps, inflammation, or cancer.

What Bowel Preparation is required? For the procedure to be accurate, the colon must be completely clean. This is achieved by closely following the colonoscopy instructions below. The preparation will cause diarrhea in order to clean the colon. A prescription will be provided for the preparation to be purchased at your local pharmacy.

What do I need to bring? Wear loose fitting clothing and leave jewelry and valuables at home. You will need to provide ID, a health information card, and credit card in the event there is a co-pay for the procedure.

How long is the procedure? On average, the procedure time is between 20-30 minutes. Allow 2-3 hours from your arrival time before you will be ready to go home. It is important to arrive on time to allow for timely check in and pre-procedure admission.

What happens after the procedure? The anesthesia used for sedation during the procedure will make you drowsy for several hours following your exam. A friend or family member must drive you home and be present as we review your post-procedure instructions. This process is required by law. Your procedure may be cancelled if a responsible adult is not available to take you home.

DIET INSTRUCTIONS:

THE DAY BEFORE YOUR COLONOSCOPY

- Follow the **WHITE DIET** all day (see separate WHITE DIET instructions) **pg. 2**.
- You may eat from the **WHITE DIET** list of foods with the final meal at **4:00 p.m.**
- Only **CLEAR FLUIDS** are allowed after the **4:00 p.m.** meal until the colonoscopy.

BOWEL PREPARATION INSTRUCTIONS

DAY OF COLONOSCOPY	
5:00 a.m.	<ul style="list-style-type: none"> • Only CLEAR FLUIDS are allowed until your colonoscopy. • CLEAR FLUIDS include: water, soda water, mineral water, ginger ale, sports drinks (not red, purple, or blue), lemonade, apple juice (no pulp), black coffee/tea, Jell-O (not red), or clear soup (e.g. clear chicken broth). • Drink Dose 1 of PLENVU*: Empty Dose 1 pouch into the disposable container & mix with 16 ounces of water until completely dissolved (may take 2-3 minutes). Drink slowly over 30 minutes. Then, drink an additional 16oz of clear fluids of your choice.
4 hours before the procedure	<ul style="list-style-type: none"> • Drink Dose 2 of PLENVU*: Empty 1 pouch A and 1 pouch B into the disposable container. Add water to the top line of the container. Mix to dissolve. Drink slowly over 30 minutes. Then, drink an additional 16oz of clear fluids of your choice slowly over 30 minutes. • Do not drink anything more 2 hours before your procedure time. • You can take regular medication with a sip of water but do NOT take diabetes medication.

*** Having difficulty tolerating the PLENVU?**

For many patients, the taste and tolerability of the preparation is a challenge. However, it must be consumed. Here are some methods that have been helpful for patients:

- Chill the solution in the refrigerator before consumption, but within 6 hours of mixing.
- Use a straw to bypass the taste buds.
- Use hard candies, i.e. Jolly Ranchers, during drinking to buffer the taste.
- If you feel nauseous, wait 15 min. before resuming.
